PROJECTS

Nov 2024 – Dec 2024

E-Commerce Website | MERN Stack ⧉
- This project includes a React.js frontend and a Node.js, Express, MongoDB backend. The frontend allows users to browse products and view detailed product pages with responsive UI components.
- The backend provides RESTful APIs for managing products, carts, orders and implemented CRUD operations.
- The system ensures smooth integration, modern design, and efficient functionality for online shopping experiences.

Jul 2024 – Sep 2024

Employee Management System | MERN Stack ⧉
- Developed a full-stack web application using React, Node.js, and MongoDB for managing employee data, improving workflow efficiency.
- Implemented CRUD operations and managed employee details.
- Created a dashboard with Chart.js to visualize employee data, providing clear insights into employee distribution by department.
